Art Unit: 1651

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8 and 13, drawn to a method of hydrolyzing defatted jojoba meal comprising hydrolyzing, adding an acid, and deactivating, classified in class 435, subclass 41.
  - II. Claims 9-12 and 14, drawn to a method of hydrolyzing jojoba meal comprising heating, agitating and cooling, classified in class 210, subclass 501.

The inventions of Groups I and II are related as methods but these methods are distinct one from the other because different process steps are required for carrying out the method of Group I and II. The method of Group II does not require the method of Group I nor does the method of Group I require the process steps of Group II. Each method may be carried out separately and distinctly from the other and are also classified differently. Two way distinctness exists between each of the claimed methods of Group I and II. A separate search is required for each of the methods.

2. The inventions are distinct, each from the other because of the following reasons:

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. A telephone call was made to Mr. Collins on December 27, 2002, to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1651

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Deborah K. Ware whose telephone number is (703) 308-4245.
